

Remember the Rule?

NO

Idling at School

A PROJECT OF THE
ACTIVE & SAFE ROUTES TO SCHOOL PROGRAM

Is there a line-up of vehicles, with engines idling, outside of your school at drop-off and pick-up times?

Are you concerned that these idling vehicles are harming the air quality around your school, as well as the vulnerable lungs of the students?

Would you like ideas on how to encourage the drivers of these vehicles to turn their engines off while waiting at the school?

To request a No Idling at School kit for your school, complete the fax-back portion of this flyer below or send us an email to asrts@sympatico.ca

The No Idling at School project is funded by: the Ontario Ministry of Environment, Toronto Atmospheric Fund, Ontario Trillium Foundation, Laidlaw Foundation, Ontario Community Foundation.

We thank the following organizations for their support: LURA Consulting/McKenzie-Mohr Associates; Natural Resources Canada; City of Toronto, Department of Public Health and Works and Emergency Services; Ontario Ministry of Environment's Drive Clean Program.

FAX TO: (416) 488-2296

YES, please mail our school a No Idling at School kit today!
